"We are establishing a bridge of precious dependability"

-Eng. Marzouk Mansour CEO

"With extensive experience in real estate development and strong partnerships with major companies and consultancy firms across the globe, our Saudi Arabian and United Arab Emirates-based companies have unveiled a new vision to revolutionize real estate development in Egypt.

We believe that the ultimate goal of the real estate industry, rather than just developing residential, administrative, or commercial units, is to create a means for daily satisfaction via reconstruction for improvement and luxury."

"Strengthening the Saudi-Egyptian Partnership"

-Saudi Investment Representative and Board
Member *Eng. Salem Al Saudais*

"Al Tameer Arabian is a collaboration and partnership between Saudi and Egyptian partners in the Egyptian market, owing to the strong ties that exist between the Kingdom of Saudi Arabia and the Arab Republic of Egypt, as well as the fostering of many Saudi investments in Egypt via investment companies and the Saudi Sovereign Fund.

We anticipate greater investments in the next years, not just in the real estate development sector, but also in other areas, such as agriculture, trade, construction, and manufacturing. Our work is confidently based on the visible cultural legacy and strong economic contacts between both nations and governments, which are supported by our experience and successes in the Kingdom since the early 1990s.

OUR mission

Is to be the leading company in the field of construction engineering services and entertainment and recreations in the Middle East and North Africa through a network of sister companies. We have established strategic partnerships with many engineering consultancy firms and ride installers with extensive experience around the world.

We are proud of our past, we have an active present, and we look forward to a promising future. These values are ingrained in our company culture and are followed in every aspect of our business operations through four key principles: "Never compromise on quality, consistent value for money for our customers, customer satisfaction, and maintaining loyalty with employees and vendors".

OUR vision

Core Values

Creativity & Solidarity

Edging a standalone identity of ours: We intend to fulfill a powerful yet brand new innovative and developmental strategies

Social Responsibility

We always care about being a whole, aiming for credibility and morality, and continuously contributing to our society

Empowering People

Our most valuable asset is our ability to sincerely hire and develop the best talents and practices in the industries we are involved in.

Expertise

We expand our expertise by taking an innovative and cutting-edge approach to creating and providing the most efficient solution.

WORK HISTORY

01 SAUDI ARABIA

The Kingdom of Saudi Arabia is regarded as one of our most striking achievements, and it also serves as the beginning point for an unending sequence of successes. We have developed a solid foundation of trust and reputation over the years, which has had an influence both locally and globally. Our presence in Saudi Arabia comprises the following companies:

- Razik Al-Gedrawy
- Salem Saudes Engineering Consultancy
- Pharos wood
- Pharos glass
- RG MEDICAL BRANCH
- MME TELECOM

RG

Over 40 years of extensive experience in the construction business. The journey of Al- Gedrawy began in the early 80s, and in no time developed as one of the leading contracting companies in the Kingdom of Saudi Arabia.

Since then, RG Contracting expanded to Dubai as MCI Contracting then cemented our name in the Egyptian Real Estate Development market as Al Tameer Arabian in the New administrative capital in Cairo. We became professionals in numerous construction disciplines after more than 40 years of effort and hard work. We carry out a diverse range of megaprojects in the residential, commercial, and educational sectors and infrastructure works for several residential communities.

RG Contracting Subsidiaries:

- Pharos glass & Aluminium
- Pharos wood

The image is a detailed architectural rendering of a modern residential development. It features a row of two-story villas with a warm, terracotta-colored facade and dark-framed windows. A large, leafy green tree stands prominently in the center, casting a shadow over the scene. In the foreground, a paved pedestrian walkway is populated with several people, including a family sitting on a bench and a child standing. To the right, there is a landscaped area with purple flowering plants and a trellis with white flowers. A semi-transparent text box in the center of the image provides project details. The background shows more of the villa complex under a clear blue sky with a soft sunset glow.
