ABOUT US

Ghoneim Group Developments , founded by Eng / Kamal Ghoneim , chairman of board , in 1968 . It has stamped its name as a leading entity in the local and the middle eastern market of an experience that exceeds 50 years and more to come .

It has always seeked and thrived to be in a constant development and growth , and gained both experience and high end performance which have transformed from generation to another.

GGD 's domains are diversified in many fields such as, electro-mechanical , construction sewage total Station turnkey , roads , real estate & investment and agricultural businesses .

It has long distinguished itself by providing quality work. In 1968 , was called (EFKO Electro-Mechanical EngineeringCompany), since it was engaged in the two fields of electro-mechanical and industrial. The former was in transforming stations and the latter was in steel construction pumping stations and manufacturing compressed pipes.

In 1974 , the construction ministry was first established in Egypt which drove GGD to instantly adopt its resources to a new challenge of another industry and diversified its specialty to construction projects, It started with building infrastructure and turnkey communities, which constituted the biggest share.
It ranged from planning land space, leveling, and infrastructure such as watering, road construction, and electrical projects.
GGD was also interested in the mechanical domain, and took a large amount of projects of the military sector.

In 1979 , it enlarged its specialization and renamed itself as (EFKO engineering and constracting company), due to the high demand of this domain it provided a great number of building infrastructures, planning and financing in both the North coast and the turnkey concession in mokattam city, In 1994, GGD has decided not only to lead as a contracting company but also to takeover investment projects as well, It established a new company for the third time as (The Egyptian real estate investment company) . Finally, In 2007 GGD launched a new company called (The Egyptian real estate and agricultural company).

According to the group's constant thrive to be on the lead and its an intuition in field of tourism, it acquired the Ras Dahisa Company for Tourism, Sailing and Scuba diving, and went with its full capacity to develop 160 acres on the most magnificent Red Sea coast in the city of Ras Sedr.

In 2016, the group established Cairo Green Company to play its role towards society and based on the state's vision in expanding agricultural projects, land reclamation and export crops with high-quality standards and crews of the best experts and specialists.

The human resources among the group are carefully selected and are among the most calibers intuitive people hence GGD offers them very distinctive level of medical and services.

- Legal entity Egyptian shareholders company for which law no. 159 of the year 1991
- Chairman of board and managing director Mohamed Kamal Abd Alhay Mohamed Ghoneim

- Authorized capital: 100 LE million
- Issued and paid capital LE 25,679,400 Million.
- Number of employers 629 employees.
- Years of expertise since 1968.
- Company rank : EFKO is ranked as category (A) the highest among the Egyptian federation for construction and Building.
- Tax card 200-72-536
- Business record 274084
- Registration number in the Egyptian union of real estate building contractors 331

OUR MISSION

Since GGD was founded in 1968, it aims to play the strategic role of implementing most of the major national projects as well as activating the state's plan to develop a modern and developed road network.
Providing urban communities and luxurious real estate projects, serviced and dynamic and envisioning all elements of sustainable development-in harmony with the goals of the state in disrupting population densities within major cities. Providing major vital agricultural projects that will restore the distinguished Egyptian agricultural export.

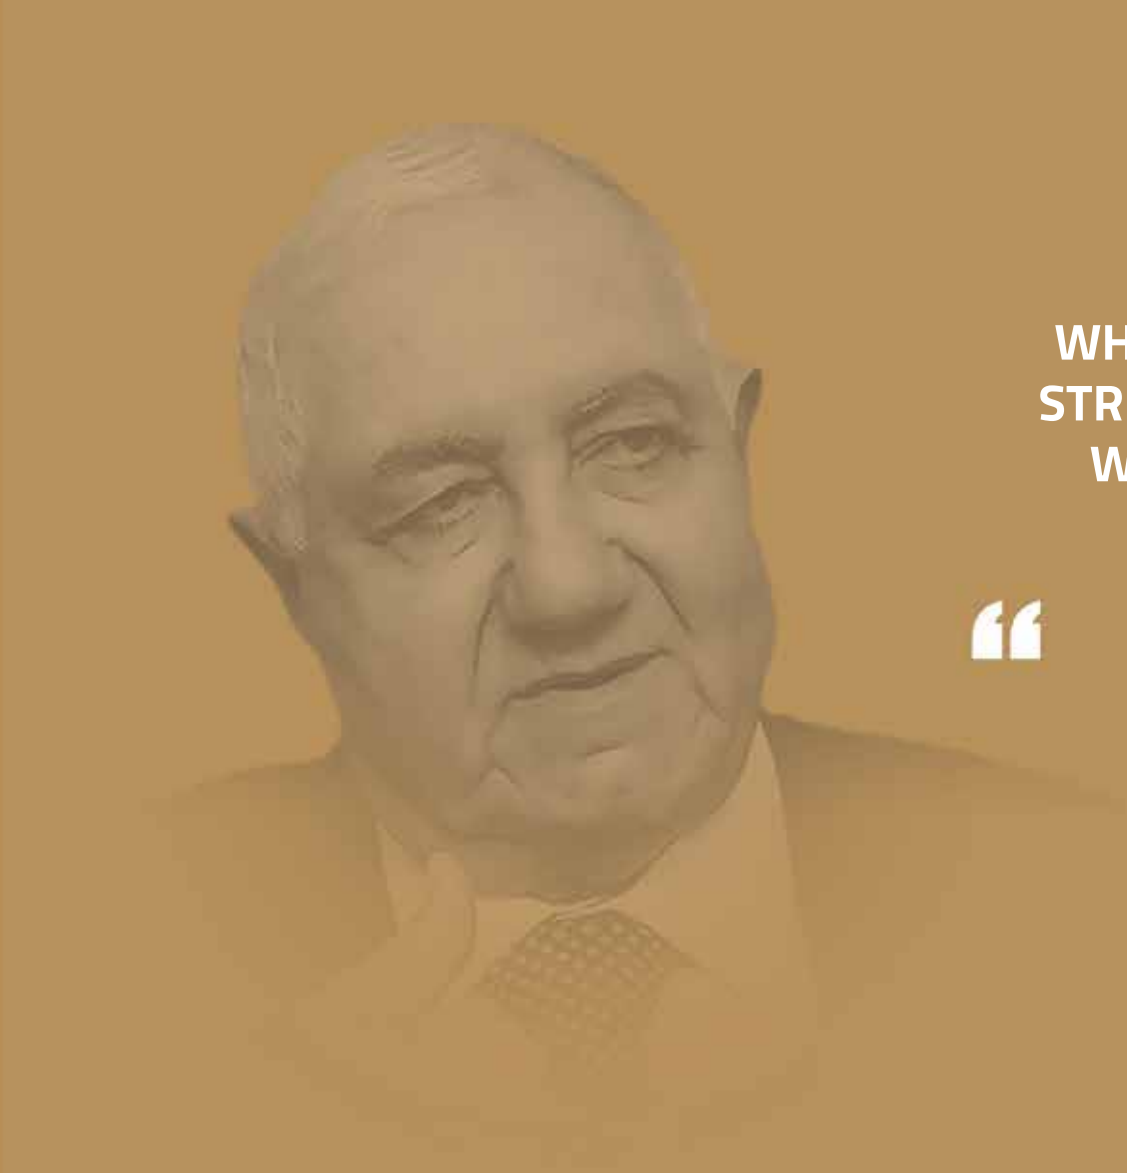
OUR VISION

As for the future, we look at it with an eye of hope and intuition. We always strive to pay attention to the finest details of all our projects, we look at them as innovations not just projects . Our goal is always to provide the best services and luxury.

Therefore, we seek to increase the group's market share of all of its fields at the Middle East region and Africa during the coming years.

While maintaining the group's entity as one of the leading groups at the area of Egypt and the Middle East.

Our ambition and termination dont know, The Impossible.



WHEN GOD BLESSES YOU AND GIVES YOU STRENGTH, DON'T BE AN OBSTACLE IN THE WAY OF PEOPLE, BUT THRIVE TO HELP AND SUPPORT THEM

ENG. KAMAL GHONEIM

CHAIRMAN OF GGD

الشركة المصرية للإستثمارات العقارية (إفكو)

Since 1968 , the company was founded by its owner Eng / Mohamed Kamal Ghoneim under the name of (EFKO Electro-Mechanical Engineering) Specialized in Mechanical and contracting projects , new urban communities , and housing complexes , including the infrastructure of water , sewage and electricity stations.
The company has carried out many projects over the years and the name EFKO is behind the most important projects of roads, electromechanical works , utilities and urban cities , in addition to its contribution to building the city of Mokattam to create a new civilized community.
